

TECHNICAL DATA

CASTERCOTE

Description:

Castercote is heavy duty trolley oil for use in batch or tank systems in beef slaughter plants. Castercote is formulated to adhere to metal surfaces under condition of extreme heat and moisture.

Physical Properties:

Appearance – Colorless viscous liquid

Odor - Odorless

Density – 7.16 pounds per gallon

Directions for Use:

Dip trolleys in a tank of hot oil (160-180°F) for a minimum of 10 seconds. Let the excess oil drip off. For more information, please contact your PSSI Chemical Innovations representative.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

Do not store with strong oxidizing agents. Keep out of reach of children.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Avoid water contamination and extreme temperatures to minimize product degradation. Do not store at temperatures above 120°F or in direct sunlight for extended periods of time. Keep container closed.
