

FLOOR-EX

Floor-Ex is a floor treatment powdered product used to prevent slipping and provide cleaning action.

FEATURES

- ▶ Effective odor control and cleaning agent in moist environments, such as floors, drains and any other non-food contact surfaces.
- ▶ Does not contain salt, phosphates, or chlorine bleach.
- ▶ Cationic quaternary ammonia surfactant is activated in contact with moisture and is designed to enhance penetration and dispersion.
- ▶ When activated generates hydrogen peroxide to accelerate activity.

DIRECTIONS FOR USE

- ▶ Apply in thin layer on food plant flooring, either manually or using a drop spreader.
- ▶ Application rate of 10 lbs. per 3,750 sq. ft. will deliver an effective level of odor control and prevents slipping of personnel on production floor.
- ▶ Floor-Ex is not meant to replace an effective floor sanitizing program.

EPA Registered	Texture	Color	Main Ingredient	Secondary Ingredient	Wastewater	pH
No*	Coarse Powder	White (no dye)	Sodium Bicarbonate/ Sodium Percarbonate	Cationic quaternary ammonia (1.2% = 12000ppm)	High quat ppm	Alkaline

*EPA registration can only be based on liquid solution test results and not indicative of the performance of the product as a floor treatment
