

## TECHNICAL DATA

### FLOOR-OX

#### Description:

Floor-Ox is a floor treatment used to prevent slipping on production floors in meat, poultry, dairy and general processing plants. It contains sodium percarbonate which makes it an effective odor control agent in moist environments, such as floors, drains and any other non-food contact surfaces. When activated, Floor-Ox generates hydrogen peroxide to accelerate activity. This product is proven to be safe and non-corrosive to drain systems and does not contain salt or phosphates. Floor-Ox is not meant to replace an effective floor cleaning and sanitizing program.

#### Physical Properties:

Appearance - White granules

Odor - Mild to none

pH of 1% solution - 10

Rinsing - Excellent

#### Directions for Use:

Apply in thin layers on food plant flooring, either manually or through the use of a drop spreader. Application rate of 10 lbs. per 3,750 sq. ft. will deliver an effective level of odor control and prevent slipping of personnel on production floor.

This product is for use on floor surfaces. If used on food contact surfaces all food products and packaging materials must be removed or carefully protected.

#### Safety:

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container closed and store in a cool, dry place.
