

## TECHNICAL DATA

# KC-215 DEGREASER

### Description:

KC-215 Degreaser is a water soluble non-VOC, biodegradable degreaser. It is designed for degreasing floors, walls, metal equipment and other hard surfaces. Can be safely used on all metals, concrete, plastics, vinyl, ceramic and glass. It is very effective in removing grease and fat build up, tire marks, permanent marker, graffiti, and for metal parts cleaning.

### Physical Properties:

Appearance - Colorless, slightly hazy liquid

Odor - Mild

pH, concentrate - 6-8

Density - 8.43 pounds per gallon

Foaming - Medium

Rinsing - Good

### Directions for Use:

Dilute KC-215 Degreaser with water at 1:1 to 1:5 ratio, depending on the soil to be removed. Apply liberally to the surface as a spray, or wipe on. Hand held garden sprayers and spray bottles are adequate for use at low pressure. Allow the product to remain on surfaces without scrubbing for 5 minutes, then simply rinse surfaces with potable water. High pressure water is recommended, but house pressure is adequate. Heavily soiled surfaces may require using undiluted KC-215 Degreaser as well as some scrubbing and/or a second application. Contact your PSSI Chemical Innovations Representative for help with your particular application.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

### Safety:

Warning! Eye irritant, avoid contact with eyes. In case of eye contact, immediately rinse eyes with plenty of water. Prolonged or repeated contact may cause skin irritation. If on skin, rinse with plenty of water.

Read Safety Data Sheet (SDS) before using this product.

Revision Date:  
January 2020

**Storage:**

Keep container closed and store in a cool, dry place. If kept at high temperatures, above 100°F, the product might turn cloudy and milky. This does not affect product performance and normal appearance will return once cooled.
