NON-FOAMING ACID CLEANER

A strong acid-based cleaner for removing alkali scale, hard water buildup, and rust from metal surfaces of food processing equipment. Especially effective for cleaning tripe washers.

DIRECTIONS FOR USE: Use 1 to 5 ounces per gallon of 100°F-140°F water to remove non-organic soils by brush, circulation, pressure spray or soaking and to neutralize residual alkalinity on food plant equipment. It may also be used for brightening of stainless steel and aluminum surfaces. This product should not come into direct contact with meat, shell eggs, or other food products. After use thoroughly rinse surfaces with potable water to remove all residue.

Additional Precautions: Oxidizer! Corrosive! Contains phosphoric and nitric acid.
