

## TECHNICAL DATA

### KC-435

#### Description:

KC-435 is an organic acid salt cleaner for removing scale, buildup, and stains from surfaces. Effectively removes alkaline product build up. Safe for use on aluminum\*, stainless steel and most other metals when used according to instructions.

#### Physical Properties:

Appearance - Clear light yellow liquid

Odor - Sour

pH, concentrate - 1.0 @21 °C

Density - 8.82 pounds per gallon

Foaming - Medium/High

Rinsing - Excellent

#### Directions for Use:

Use 8 to 16 ounces per gallon of hot water (100-140°F). Apply by low mist spraying or soaking, let soak for about 5 minutes. Do not let chemical dry on surfaces. Rinse thoroughly with potable water.

\* - Due to large number of grades of aluminum, they all respond differently to cleaning. It is recommended that KC-435 be first tested in an inconspicuous spot before applying to large areas.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

#### Safety:

Danger! Corrosive! Contains organic acid salts. Causes severe skin burns and eye damage. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician. Product can be irritating to the respiratory tract if inhaled as a mist or if the material is vaporized. Harmful if swallowed. Wash thoroughly after handling. Wear proper personal protective equipment when handling.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container closed and store in a cool, dry place.
