

TECHNICAL DATA

KC-45

Description:

KC-45 is a powerful medium foaming cleaner and degreaser. KC-45 can be used alone for cleaning and degreasing of concrete, tile, steel and other heavy duty industrial floors or as an additive to other cleaners for a boost in cleaning and degreasing performance. KC-45 may be applied by brush or through foaming units on equipment, walls and floors in all departments of meat, poultry and general food processing plants.

Physical Properties:

Appearance - Clear to light yellow liquid

Odor - Solvent

pH, concentrate - 12.5-13.0

Density - 8.65 pounds per gallon

Foaming - Medium

Rinsing - Excellent

Directions for Use:

Dilute 1 to 16 ounces of KC-45 per gallon of water for use as a floor, wall or equipment cleaner. Please contact your PSSI Chemical Innovations representative for information on how to use KC-45 as a degreasing additive.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Product is intended for use on stainless steel appliances and most plastics, and is not compatible with aluminum or other soft metals. Consult your Safe Foods Chemical Innovations representative for more information regarding material compatibility.

Safety:

Do not mix with acid containing products! Avoid contact with skin and eyes. Avoid breathing mist or vapor of this product. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep container closed and store in a cool, dry place.
