

TECHNICAL DATA

KC-475

Description:

KC-475 is 75% Phosphoric Acid. It may be used for dissolving mineral deposits and hard water scales on equipment and other surfaces in all departments of poultry, meat and general food processing plants.

Physical Properties:

Appearance - Clear liquid

Odor - Sour

pH, concentrate - Less than 1.0 @21 °C

Density - 13.3 pounds per gallon

Foaming - None

Rinsing - Excellent

Directions for Use:

Apply to a cleaned surface at ratio of 1 to 6 ounces per gallon of water. Apply by brush or sprayers. Allow to sit on the surface for 5 to 10 minutes. Do not let chemical dry on the surface. Rinse thoroughly with water.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

KC-475 contains phosphoric acid. Avoid contact with skin, eyes and clothing. Wear appropriate PPE when handling. Do not mix with caustic products or chlorine bleach! Read Safety Data Sheet (SDS) before using this product.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep container closed and store in a cool, dry place.
