

# KC-49

## GEL ADDITIVE

### WARNING

**Causes eye irritation. Prevention:** Wash face, hands and any exposed skin thoroughly after handling. **Response: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Recommended First Aid: IF ON SKIN (or hair):** Rinse skin with water. Get medical attention if irritation develops and persists. Wash contaminated clothing and shoes before reuse. **IF SWALLOWED:** Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. **IF INHALED:** Remove to fresh air. Consult a doctor if necessary.

KC-49 Gel Additive is a powdered product intended to be used with alkaline or acid cleaning products. When dissolved in water KC-49 Gel Additive creates a viscous clinging solution that offers increased contact time with vertical surfaces and better soil penetration.

**DIRECTION FOR USE:** Dissolve KC-49 Gel Additive in cold or warm water at a rate of 1-3% w/v (1.4-4 ounces per gallon or 3.8-11.2 pounds per 45 gallon tank foamer). Mix for 5 minutes to develop the gel. Add desired amount of alkaline or acid product and mix thoroughly. Apply solution to all surfaces to be cleaned. Allow the solution to remain on cool surfaces for 30 to 45 minutes or 10 to 15 minutes on hot surfaces for maximum cleaning effect. Rinse thoroughly with hot water for best results in removing all residues.

Read SDS before using this product.
