

## TECHNICAL DATA

### KC-505

#### Description:

KC-505 is a super heavy duty high foaming caustic cleaner and degreaser. This product contains a powerful mixture of surfactants and chelating agents for use in difficult cleaning applications. Although the product may be used cold, best results are usually obtained at temperatures from 100-120°F. KC-505 may be used in all departments of meat, poultry and general food processing plants.

#### Physical Properties:

Appearance – Clear brown liquid

Odor – Mild

pH, concentrate - >13

Density – 11.85 pounds per gallon

Foaming – Very high

Rinsing - Excellent

#### Directions for Use:

KC-505 is normally diluted at the rate of 2-12 ounces per gallon of water depending upon the soil to be removed, the temperature of the cleaning bath and the time allowed for cleaning. When used in pressure washing, the typical dilution is 50-100:1.

Note: This product is not safe on soft metals, galvanized and painted surfaces. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

#### Safety:

Contains sodium and potassium hydroxides. Contact with eyes and skin might cause burns. Avoid contact with eyes, skin and clothing.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container closed and store in a cool, dry place.
