ID #20591

KC-541 is a non-foaming chlorinated alkaline cleaner. It's formulated for use in CIP systems, spray equipment, by soaking and for other applications where foam must be controlled. Contains no phosphates. KC-541 may be applied on equipment, utensils, walls and floors in all departments of meat, poultry and general food processing plants.

DIRECTIONS FOR USE: Rinse area to be cleaned with water to remove gross soil. Dilute 4-8 ounces per gallon of warm water (not more than 120°F). For CIP systems, circulate for 10 minutes, drain and rinse with clean water. If used in spraying equipment, spray on equipment, let stand for 5 minutes and rinse with clean water. For more information on usage contact your Safe Foods Chemical Innovations' Representative.

DO NOT use KC-541 on aluminum or other soft metals. When in doubt, pretest on small areas. Do not mix with acids, ammonia or other cleaning chemicals.
