

TECHNICAL DATA

KC-543

Description:

KC-543 is a heavy-duty chlorinated powdered cleaner with very low foaming properties. It possesses excellent cleaning and water conditioning ability. KC-543 is designed for use in spray and CIP cleaning of food processing equipment.

Physical Properties:

Appearance – White powder

Odor – Slight chlorine

pH, 2% solution – 12.0-12.5

Foaming – Low

Rinsing – Excellent

Directions for Use:

Rinse area to be cleaned with hot water to remove gross soil. Use 2-4 ounces of KC-543 per gallon water. Circulate for 10 minutes. Drain. Rinse well with water. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

KC-543 contains metasilicate and sodium dichlorisocyanurate. Avoid contact with skin and eyes. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician. DO NOT use KC-543 on aluminum or other soft metals. When in doubt, pre-test on small areas. Do not mix with acids, ammonia or other cleaning chemicals. Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep container covered and store in a cool, dry place away from direct sunlight, preferably between 35-85°F.
