## CHLORINATED FOAMING CLEANER

KC-545 is a high-foaming all-purpose liquid detergent which combines special surface-active agents with the power of alkalinity and chlorine bleach. It also contains sequestering and chelating additives for effective performance in hard water conditions. It may be used as a general cleaning agent on equipment, utensils, walls and floors by brush or by foaming device in all departments of meat, poultry and general food processing plants.

**DIRECTIONS FOR USE:** Rinse area to be cleaned with water to remove gross soil. Use in any foaming apparatus, diluting 1-14 oz. per gallon of water. Dilution rate varies with length of exposure time to contact surfaces and soil level. Apply foam to hard surfaces for cleaning metal, concrete, glass and plastic. Product dissolves grease and removes dirt, blood, and tissue debris from all slaughter and meat processing areas. Adheres to and cleans vertical surfaces. Chlorine bleach helps remove proteinaceous soils.

Note: This product is not safe on soft metals, galvanized and painted surfaces.
