CHLORINATED FOAMING CLEANER

KC-549 is a liquid concentrated chlorinated high-foaming alkaline cleaner. KC-549 is recommended for heavy duty foam cleaning in food processing facilities for removal of dirt, grease, grime, blood and protein build up.

DIRECTIONS FOR USE: Rinse area to be cleaned with hot water (100°F–140°F) to remove gross soils. Dilute at a rate of 2-12 ounces per gallon of water depending upon soil to be removed, or to required strength necessary to achieve satisfactory cleaning results. Dilution rate varies with length of exposure time to contact surfaces. Apply foam to surfaces by manual spraying, mopping or scrubbing, or through foam generating equipment. Let dwell for not more than 10 minutes, do not allow the chemical dry on surfaces. Rinse thoroughly with water.

Note: This product is not safe on soft metals, galvanized and painted surfaces.
