KC-553 Sequest is a powerful blend of caustic and surface active agents. KC-553 Sequest is designed to be used as a heavy-duty CIP cleaner and features outstanding performance on hard to remove fat soils. It adheres to and cleans vertical surfaces. KC-553 Sequest may be used in all departments of meat, poultry and general food processing plants.

DIRECTIONS FOR USE: Use in any cleaning apparatus. Dilute 2-14 ounces of KC-553 Sequest per gallon of hot water (110-170°F). Dilution rate depends upon soil to be removed, water temperature and time allowed for cleaning. Apply to surfaces such as: stainless steel, black iron, concrete, glass, and plastic. Product dissolves grease and removes dirt, blood and tissue debris from slaughter and meat processing areas. Adheres to and cleans vertical surfaces. After use rinse thoroughly with potable water to remove all residue. Do not use on aluminum or other soft metals. When in doubt, pretest on small areas.
