KC-560 is a powdered alkaline cleaner with an oxygen generating additive for use in utensil, equipment, and floor cleaning in food processing operations. KC-560 provides intensive cleaning by removing difficult stains and lifting soils.

**DIRECTIONS FOR USE: Floor Cleaning:** Remove gross soils from floor surfaces. Apply KC-560 at a rate of 2-3 pounds of product per 1,000 sq. ft. of surface area. Rinse area thoroughly with potable water to remove all product residue. It may not be applied to the floor during production as an anti-slip additive and must be thoroughly rinsed off prior to start up.

**Utensils and Equipment Cleaning:** Prepare a solution of 2-10 ounces of KC-560 per gallon hot water (120°F-140°F), depending on the soil level. Apply by soaking, spraying, or mopping. Let dwell for 15-20 minutes. Do not allow the chemical to dry on the surface. Brush or scrub if needed. Rinse thoroughly with potable water to remove all residue.

KC-560 is not a replacement for hard surface sanitizing/disinfecting.
