

## TECHNICAL DATA

### KC-564

#### Description:

KC-564 is a high caustic cleaner and degreaser. This product contains a powerful mixture of surfactants and chelating agents for use in difficult cleaning applications. Although the product may be used with cold water, best results are usually obtained at temperatures from 110-170°F. KC-564 may be applied in soak tanks, through foaming units, and with steam or other mechanical cleaning devices in smokehouses and in all departments of meat, poultry and general food processing plants.

#### Physical Properties:

Appearance - Clear brown liquid  
Odor - Mild solvent  
pH, concentrate - >13  
Specific gravity - 10.29 pounds per gallon  
Foaming - High  
Rinsing - Excellent

#### Directions for Use:

Use 2-8 ounces of KC-564 per gallon of hot water. Dilution rate depends upon soil to be removed, water temperature and time allowed for cleaning. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

#### Safety:

Contains sodium hydroxide. Contact with eyes and skin might cause burns. Avoid contact with eyes, skin and clothing. Do not use on aluminum or other soft metals. When in doubt, pre-test on small areas.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container closed and store in a cool, dry place.
