plant.

B

Additional Precautions: Corrosive! Contains sodium and potassium hydroxide.

Read SDS before using this product.

KC-568 is a super heavy duty high caustic cleaner and degreaser. This product contains a powerful mixture of surfactants and chelating agents for use in difficult cleaning applications. Although the product may be used cold, best results are usually obtained at temperatures from 100°F-120°F. KC-568 may be used in all departments of meat, poultry and general food processing plants.

**DIRECTIONS FOR USE:** KC-568 is normally diluted at the rate of 2-12 ounces per gallon of water depending upon soil to be removed, the temperature of the cleaning bath and the time allowed for cleaning. When used in pressure washing, the typical dilution is 50-100:1.

Note: Do not use KC-568 on aluminum or other soft metals.
