

NATURAL RED

HAND SOAP

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

Recommended First Aid: IF IN EYES: Hold eye(s) open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye(s). If eye irritation persists: Get medical advice/attention. **IF ON SKIN (or hair):** Rinse skin with water. Get medical attention if irritation develops and persists. **IF SWALLOWED:** Do NOT induce vomiting. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person.

Read SDS before using this product.

Natural Red is thick, rich hand soap intended for frequent application. It contains no harsh irritants, yet performs as a heavy duty hand cleaner. Rinses free of any slippery residue and is unscented. Natural Red can also be used as a light duty hard surface cleaner for washing lightly soiled equipment, utensils, containers, and other hard surfaces in food processing plants.

DIRECTIONS FOR USE: Place approximately one teaspoon of soap in the palm of hand, add sufficient amount of water to wet hands, and wash thoroughly in the normal manner. Rinse completely. For hard surface cleaning, mix 2-8 oz of Natural Red with 1 gallon of warm water and apply to surfaces by brush, mop, cloth, or soaking. Rinse thoroughly.
