

TECHNICAL DATA

OXYBRITE

Description:

Oxybrite is an effective oxygen bleach which provides gentler bleaching action than chlorine bleach, and can be used safely on most surfaces, fabrics and colors. It effectively removes blood stains and guts grease. Oxybrite is biodegradable.

Physical Properties:

Appearance - White granules

Odor - Odorless

pH, 1% solution - 10.4-10.6

Rinsing - Excellent

Directions for Use:

Use 8 ounces of Oxybrite per 30 pounds of dry weight for laundry bleaching.

For surface, equipment or utensil bleaching, dissolve 2 to 8 ounces of Oxybrite per 1 gallon of warm or hot water. Soak pre-cleaned items. Let sit for 15 to 30 minutes.

Rinse thoroughly with potable water to remove all residues. For more information contact your PSSI Chemical Innovations representative.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

Avoid contact with eyes and skin. Avoid breathing dusts. Wear personal protective equipment when handling this product.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Store in a cool, dry place. Keep container closed. Keep away from sources of heat, sunlight and reactive materials.
