

TECHNICAL DATA

OXYCIP

Description:

Oxycip is an effective bleaching and cleaning additive that could be safely used on most surfaces. It's odor-free, non-toxic, readily biodegradable, and environmentally friendly.

Physical Properties:

Appearance – Clear liquid

Odor – Odorless

pH, concentrate – 2-4

Density – 9.43 pounds per gallon

Directions for Use:

Use approximately 6 to 12 oz. of Oxycip per 1 gallon of water for bleaching of plastic belts, tubs, and utensils. For more information, please contact your Safe Foods Chemical Innovations representative.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

DANGER! OXIDIZER! Contact with combustibles may cause fire. This product decomposes yielding oxygen that supports combustion of organic matter and can cause overpressure if confined. Avoid contact with reducing agents, wood, paper, heavy metals, and caustic. Combustible materials exposed to hydrogen peroxide should be immediately submerged in or rinsed with large amounts of water to ensure that all Oxycip is removed. Never return unused Oxycip to the original container. Avoid contact with eyes, skin and clothing. Avoid breathing mists. Use proper personal protective equipment when handling.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Store in cool area out of direct sunlight and away from combustibles. Containers must be vented.
