

# PC-1310

## INDUSTRIAL GENERAL PURPOSE DEFOAMER

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

PC-1310 is a highly effective 10% active industrial grade silicone antifoam emulsion. PC-1310 combines excellent dilution stability with effective defoaming efficiency in a wide range of applications. PC-1310 can be used to suppress and control foam in both hot and cold applications over a wide pH range.

**Recommended First Aid: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **IF ON SKIN (or hair):** Remove contaminated clothing. Rinse skin thoroughly with plenty of water. **IF SWALLOWED:** Do not induce vomiting. Have a conscious victim drink water to dilute. Never give anything by mouth to an unconscious person. **IF INHALED:** Remove to fresh air.

**DIRECTIONS FOR USE:** PC-1310 can be added directly to the foaming system or pre-diluted in water prior to use. PC-1310 can be diluted with up to equal parts of water to form stable antifoam emulsions. Dilutions greater than 50/50 should be continually stirred to ensure uniformity. Prolonged storage of diluted product is not recommended due to possibility of spoilage.

**Storage:** Keep containers closed when not in use. Empty container contains product residue which may exhibit hazards of product. Keep from freezing. **Shelf life:** 1 year from the date of manufacture if stored between 41°F and 95°F.

Read SDS before using this product.
