

PC-1535

INDUSTRIAL STRENGTH DEFOAMER

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

PC-1535 is a difunctional block copolymer surfactant type defoaming agent for use as an aid in feather and hair removal processes in poultry and pork operations as outlined in 21 CFR 172.808 (a)(3).

Recommended First Aid: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **IF ON SKIN (or hair):** Remove contaminated clothing. Rinse skin thoroughly with plenty of water. **IF SWALLOWED:** Do not induce vomiting. Have a conscious victim drink water to dilute. Never give anything by mouth to an unconscious person. **IF INHALED:** Remove to fresh air.

DIRECTIONS FOR USE: Use levels not to exceed 0.05% by weight in scald bath (1 gallon of PC-1535 for every 2,000 gallons) followed by a potable water rinse. It can also be used as a foam control agent and rinse adjuvant in hog dehairing machines at a use level not more than 5 grams per hog (1.3 gallons per 1,000 hogs). For more information contact your Safe Foods Chemical Innovations' Representative.

Storage: Keep container closed. Store at 40-120°F. Protect from freezing.

Read SDS before using this product.
