

PC-1710

FOOD GRADE DEFOAMER

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

CAUTION: Eye contact may cause brief blurry vision with direct contact. No known effect for skin exposure.

FIRST AID: If in eyes, hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes. Notify a physician if blurring of vision continues.

Storage: Keep container closed. Store in a cool, dry place. Protect from freezing.

Read SDS before using this product.

PC-1710 is 100% active non-silicone food grade antifoam. PC-1710 has been formulated to meet all requirements under 21 CFR 173.340. This product can be used in food application at levels up to 100 ppm of total system volume. Good manufacturing practices require that only the amount necessary to control the foam be used.

INGREDIENTS: Vegetable oils, food grade emulsifiers, hydrophobic silica.

DIRECTIONS FOR USE: Start at a usage level of about 50 ppm. Testing will be necessary to see if this level is adequate. More or less PC-1710 may be necessary depending on the severity of the foaming problem. Do not exceed 100 ppm of PC-1710 of total system volume.

Target ppm	Gallons to be treated	PC-1710 to add (fluid ounces)
3	1,000	0.4
6	1,000	0.8
9	1,000	1.2
