

TECHNICAL DATA

PC-720

Description:

PC-720 is a premium water soluble shackle and conveyor lubricant, effective in a variety of meat, poultry and food processing environments. PC-720 contains ingredients that are either GRAS or approved for contact with food products, therefore allowing for use in applications with incidental food contact.

Physical Properties:

Appearance - Colorless to pale yellow viscous liquid

Odor - Alcohol

pH, as is - 8.0-8.5

Density - 8.13 pounds per gallon

Directions for Use:

Dilute PC-720 with water from 1:5 to 1:35 depending on conveyor speed and load.

PC-720 should be applied by spray systems designed for lube application.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

Warning. Flammable! Keep away from ignition sources and incompatible materials. Do not store with strong oxidizing agents. Keep out of reach of children. This product contains denatured ethanol which might produce toxic effects if ingested.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Do not store at temperatures above 120°F or in direct sunlight for extended periods of time. Keep container closed and store away from ignition sources. If container left open, a film might develop on the surface of the product.
