

PC-88 LACTIC ACID 88%

FOOD GRADE

DANGER

Causes severe skin burns and eye damage.
Prevention: Do not breathe dusts or mists. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. **Response:** Immediately call a poison center or doctor. Specific treatment (see Section 4 on SDS). **IF IN EYES:** Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor. **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center or doctor. **IF SWALLOWED:** Rinse mouth. DO NOT induce vomiting.

Storage: Store locked up.

Disposal: Dispose of contents/container to an approved waste disposal plant.

Read SDS before using this product.

PC-88 is natural lactic acid produced by corn sugar fermentation. Lactic acid is widely used in food industry as an acidulant and as a carcass and belt spray.

DIRECTIONS FOR USE: Lactic acid has been widely used as carcass decontaminant in USDA inspected meat plants. The USDA allows up to 5% active food grade lactic acid to be sprayed on freshly slaughtered carcasses.
