

DISINFECTING WIPES / PERFORMANCE WIPES®

Disinfecting / antibacterial wipes are provided by Safe Foods Chemical Innovations to clean, sanitize, deodorize, and disinfect in one easy step. Presaturated with a hospital grade quaternary disinfectant, EPA registered Performance Wipes® kill common germs, viruses, and bacteria on a variety of surfaces at food processors, supermarkets, healthcare centers and hospitals throughout the United States. These disinfecting wipes are free of benzyl-alcohol, citrus, bleach, and phenol, making them safe to sanitize all surfaces. Safe Foods Chemical Innovations also conveniently offer multiple wipe stands and dispensers including wall mount dispensers, bucket dispensers, wipe floor stands, stainless steel stands and cleaning stations.
