

Power, Selectivity, Simplicity: The Ideal Biocide Solution.

Jan 1, 2021

Product(s): 2L500 Pouch, A-15 and G-series Sachets

Statement of Efficacy and Compliance

To whom it may concern:

Selective Micro® has EPA registrations on two primary product lines, the Selectrocide® 2L500 (EPA Reg.No. 74986-4) and the Selectrocide® G-series (EPA Reg. No. 74986-5), which consists of Selectrocide® 1G, 5G, 12G Selective Micro Technologies' EPA Establishment Number is 090569-OH-001. These numbers are also listed on the product label attached to each product. Both the Selectrocide® 2L500 and the Selectrocide® G-series are manufactured and sold in compliance with EPA regulations and Selective Micro's Quality Assurance and Control System; this documentation can be provided upon request.

Please refer to product label for additional information regarding use patterns and applications or feel free to contact Selective Micro Technologies if any additional information is required.

Sincerely,  
Chris Klamar
