

TECHNICAL DATA

TRIPEMAX E

Description:

Tripemax E is an effective food-grade bleaching compound for use in beef feet and tripe processing.

Physical Properties:

Appearance – Clear liquid

Odor – Odorless

pH, concentrate – 2-4

Density – 9.43 pounds per gallon

Directions for Use:

Use approximately 40-100 ounces per washer load, depending on washer manufacturer. For more information, please contact your SFCI Chemical Innovations representative.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

DANGER! OXIDIZER! Contact with combustibles may cause fire. This product decomposes yielding oxygen that supports combustion of organic matter and can cause overpressure if confined. Avoid contact with reducing agents, wood, paper, heavy metals, and caustic. Combustible materials exposed to hydrogen peroxide should be immediately submerged in or rinsed with large amounts of water to ensure that all Tripemax E is removed. Never return unused Tripemax E to the original container. Avoid contact with eyes, skin and clothing. Avoid breathing mists. Use proper personal protective equipment when handling.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Store in cool area out of direct sunlight and away from combustibles. Containers must be vented.
