**DESCRIPTION:** Deep Clean 1000 is a proprietary blend of surface-active agents and solvents for deep penetration into hard to reach areas for soil removal. Deep Clean 1000 is formulated to produce rich foam that clings to vertical surfaces and provides extended contact time. This product is designed for use on equipment, walls, floors and other surfaces in the food processing environment. Deep Clean 1000 is to be mixed with Deep Clean 1010 which provides an effective deep cleaning system that penetrates hard to reach areas, lifts and removes soils.

**DIRECTIONS FOR USE:** To make 45 gallons of solution, mix 10 gallons of Deep Clean 1000 with 25 gallons of water. Slowly add 10 gallons of Deep Clean 1010. Mix well. Apply with foaming equipment to surfaces. Let dwell. Rinse with water.

To make 100 gallons of solution, mix 22.2 gallons of Deep Clean 1000 with 55.6 gallons of water. Slowly add 22.2 gallons of Deep Clean 1010. Mix well. Apply with foaming equipment to surfaces. Let dwell. Rinse with water.

For cleaning of heavily contaminated areas, mix Deep Clean 1000 and Deep Clean 1010 in equal ratios. Let dwell. Rinse with water.
