

DEEP CLEAN APPLICATION

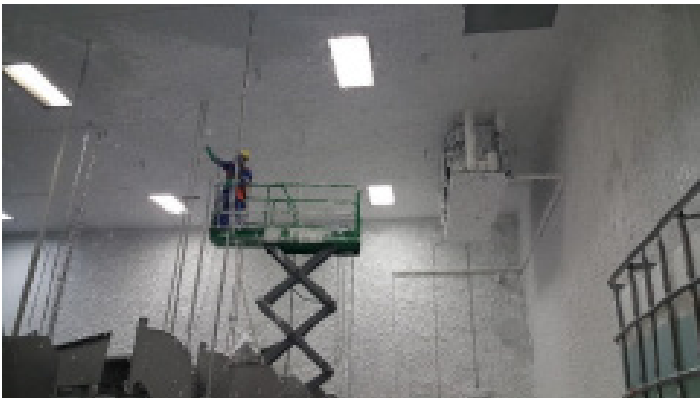

A cleaning system for deep cleaning and removal of soils that might cause pathogenic and spoilage bacteria issues in food storage and processing environments.

FEATURES

- ▶ When mixed together, Deep Clean products create an activated cleaning solution that penetrates and lifts soils in hard to reach areas.
- ▶ Deep Clean provides long lasting foam with excellent adherence to vertical and horizontal surfaces to ensure complete contact with soils.

SPECIFICATIONS

- ▶ **Deep Clean 1000** – a powerful mixture of surfactants, solvents, and alkaline builders
- ▶ **Deep Clean 1010** – oxygen bleach
