

## TECHNICAL DATA

### FB-1405

#### Description:

FB-1405 is a medium to heavy-duty, phosphoric acid based liquid detergent formulated for removing inorganic soils typically found in food processing plants. FB-1405 contains a blend of phosphoric acid, wetting agents, and rinse agents. The high foaming formulation penetrates and removes tough inorganic soils, such as soap scum, calcium scale, and other hard water precipitates. FB-1405 may be used in foaming units on equipment in all departments of dairy, meat, poultry, and general food processing plants.

#### Physical Properties:

Appearance - Red liquid

Odor - Solvent

pH - Less than 1.0 @21° C

Density - 9.85 pounds per gallon

Foaming - High

Rinsing - Excellent

#### Directions for Use:

Rinse area to be cleaned with water to remove gross soil. Use 2-8 ounces of FB-1405 per gallon of water. Spray from foaming device and let stand. Rinse with clean water. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

#### Safety:

FB-1405 contains Phosphoric Acid. Avoid contact with skin and eyes. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container covered and store in a cool, dry place.
