HEAVY DUTY CAUSTIC CLEANER

FB-1552 is liquid, heavy-duty caustic cleaner for removal of burnt on soils from high temperature food processing equipment, such as cooking vessels, vats, fryers, and heat exchangers. This product contains water conditioning and scale inhibiting additives for controlling mineral scale under high water hardness conditions. FB-1552 is safe for use on stainless steel and black iron surfaces. Low-foaming profile makes this product suitable for CIP applications. FB-1552 may be used in all departments of meat, poultry, dairy and general food processing plants.

DIRECTIONS FOR USE: Use at a rate of 2-8 ounces per gallon of water for boil out applications or CIP applications. Follow with a potable water rinse to remove all residue.

Before use in federally inspected meat, poultry, dairy and general food processing plants, food products and packaging materials must be removed from room or carefully protected.
