

TECHNICAL DATA

FB-1726

Description:

FB-1726 is a specialized conveyor lubrication product that provides effective container-to-chain and chain-to-conveyor equipment lubrication during manufacturing operations. FB-1726 is a ready-to-use dry lubrication product which greatly reduces water usage, improves cleanliness of the equipment, and reduces worker safety risk due to wet production floors.

Physical Properties:

Appearance – Milky white liquid

Odor – Mild

pH concentrate – 7-8

Density – 8.34 pounds per gallon

Foaming - None

Directions for Use:

FB-1726 is to be applied via Safe Foods Chemical Innovations Lubrication Delivery System. Specific application parameters will be determined and adjusted as needed by Safe Foods Chemical Innovations Sales and Service Representative or designated factory associate.

Safety:

Avoid contact with skin and eyes. Eye irritation may result from direct contact. Prolonged skin contact may cause skin irritation.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep container closed and store in a cool, dry place.
