

FB-1728

CONVEYOR BELT LUBRICANT

WARNING

Causes eye irritation. Prevention: Wash face, hands and any exposed skin thoroughly after handling. **Response: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

ADDITIONAL PRECAUTIONS: Keep this product away from food and food products. Keep out of reach of children. Store in a closed container in a dry area between 40°F and 120°F.

Read SDS before using this product.

Premium, concentrated water-soluble conveyor lubricant utilizing a blend of high-quality fatty acids and detergent additives to provide superior lubricity on food, dairy, and beverage conveyor lines and table top conveyors. High quality formulation helps keep tracks clean and ensures smooth operations.

DIRECTION FOR USE: FB-1728 is for use in dairies, food plants, beverage plants, and canneries where superior lubricity is required. Various system factors such as: water quality, length of conveyors, age and type of conveyors, speed of conveyors, weight, chain type, and product containers processed can affect performance and the required use dilution. Consult your Safe Foods Chemical Innovations' Representative for specific details in application, flow rate, and nozzle recommendations.

HARD WATER: Can be used in certain hard water conditions, with limitations, at 1:50 to 1:100 dilution in hard water.

SOFT WATER: Use at 1:150 to 1:400 dilution in soft water. Soft water is highly recommended for optimal performance.
