

TECHNICAL DATA

KC-565

Description:

KC-565 is a fast acting, heavy-duty cleaner that quickly removes greasy and baked-on soils from ovens, griddles, hoods, rotisseries, and drip pans. KC-565 can be used on pots and pans, ceramic ware, glass, porcelain, iron, and stainless steel.

Physical Properties:

Appearance - Translucent, light amber liquid

Odor - Slight solvent odor

pH, concentrate - 13-14

Specific gravity - 8.93 pounds per gallon

Foaming - Low

Rinsing - Excellent

Directions for Use:

1. Preheat surface to be cleaned to approximately 200°F.
2. Protect eyes and wear rubber gloves.
3. Protect floor with newspaper or similar covering.
4. Spray KC-565 onto surface and allow it to work for 5 to 10 minutes.
5. Wipe surface with damp cloth or sponge.
6. Rinse with potable water.
7. Stubborn soils may require reapplication.
8. After cleaning, heat the surface for at least 10 minutes at 200°F.

NOTE: DO NOT use on self-cleaning or continuous cleaning ovens. DO NOT use on light bulbs, heaters, electrical receptacles or connections. DO NOT use on aluminum, copper, galvanized steel, plastic, painted surfaces, composition tile, or other surfaces that can be damaged by strong alkalis. If in doubt, test first on a small, inconspicuous area.

Safety:

DANGER: Contains potassium hydroxide. Harmful if swallowed, inhaled, or absorbed through skin. Contact can cause severe skin burns and blindness by tissue corrosion. DO NOT allow product to contact skin, eyes, or clothing. DO NOT breathe vapors or spray mist. DO NOT swallow this product. Repeated overexposure can cause cumulative effects. Wear tight-fitting splash-proof goggles while using product. Wear nitrile, neoprene, natural rubber, or other alkali resistant gloves and footwear; also wear a face shield and rubber apron wherever splashing may occur. For spray
