

## TECHNICAL DATA

### KC-554

#### Description:

KC-554 is a premium, highly concentrated low foaming cleaner and degreaser. Contains chelating agents and surfactants. Eliminates the need for additional wetting agents and water conditioners. KC-554 provides fast soil penetration, emulsification and free rinsing to speed cleaning process. KC-554 may be used in CIP and COP applications in all departments of meat, poultry, and general food processing plants.

#### Physical Properties:

Appearance - Clear to amber liquid  
Odor - Alkaline  
pH, concentrate - > 13  
Specific gravity - 12.01 pounds per gallon  
Foaming - Low  
Rinsing - Excellent

#### Directions for Use:

Use 0.5 to 3 ounces of KC-554 per gallon of 140-160°F water. Dilution rate depends upon soil to be removed, water temperature and time allowed for cleaning. Contact your PSSI Chemical Innovations representative for detailed use instructions. Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

#### Safety:

Danger! Corrosive! Contains sodium hydroxide. Contact with eyes and skin might cause burns. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician. Do not use on aluminum or other soft metals. When in doubt, pre-test on small areas.

Read Safety Data Sheet (SDS) before using this product.

#### Storage:

Keep container closed and store in a cool, dry place.
