First aid measures

Skin contact

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if Eye contact

present, after first 5 minutes, then continue rinsing eye. Seek immediate medical attention/advice. Wash off immediately with soap and plenty of water while removing all contaminated clothes and

shoes. Wash contaminated clothing and shoes before reuse. For severe burns, immediate medical

attention is required.

Inhalation Remove to fresh air. Administer oxygen if breathing is difficult. Call a physician immediately. Ingestion Do NOT induce vomiting. Drink plenty of water. Never give anything by mouth to an unconscious

person. Call a physician immediately.

Most important symptoms and effects, both acute and delayed

**Symptoms** See Section 11 for symptom information.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Cool containers with flooding quantities of water until well after fire is out. Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.

### **6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures

**Personal precautions** Use personal protection recommended in Section 8. Ensure adequate ventilation, especially

in confined areas.

For emergency responders

Isolate area. Keep unnecessary personnel away. Environmental precautions

**Environmental precautions** See Section 12 for additional ecological information. Prevent entry into waterways, sewers,

basements or confined areas.

Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so. Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and

place in container for disposal according to local / national regulations (see Section 13). Collect spillage. Soak up with inert absorbent material. Sweep up and shovel into suitable
