

CORDLESS ELECTROSTATIC BACKPACK SPRAYER

Victory's Cordless Electrostatic Backpack Sprayer is designed to cover up to 23,000 square feet on a single tank of fluid (coverage per tank is determined by internal testing using flow rate and particle size). In addition, it is designed to save time and labor, spray less liquid, and cover more surfaces. Victory Innovations' patented technology provides an electrical charge to solutions, allowing them to wrap conductive surfaces with an effective and even coverage. Double-charged particles envelope all conductive surfaces—shadowed, vertical, and underneath.

FEATURES

- ▶ Patented electrostatic charge penetrates chemical providing a thin, even spray pattern on all surfaces.
- ▶ Removable easy-fill HDPE tank holds 2.25 gallons of chemical, allowing you to coat up to 23,000 sq. ft.
- ▶ Cordless convenience allows for effortless movement from room to room.
- ▶ 3-in-1 nozzle allows you to set particle size to match your application.
- ▶ 4 ft. hose with quick release valve allows for comfortable reach and maximum maneuverability.
