

TECHNICAL DATA

KC-681 Acid Sanitizer

Description:

KC-681 Acid Sanitizer is a 2-chain quaternary ammonium and phosphoric acid sanitizer for use in the Dairy and Food Processing Industry. KC-681 Acid Sanitizer removes milkstone and hardwater film, cleans, sanitizes, and brightens stainless steel surfaces. KC-681 Acid Sanitizer is recommended for cleaning dairy farm bulk milk tanks, sanitizing milking equipment and cow udders and sanitizing food processing equipment. EPA Reg. No. 1839-51-63679.

Physical Properties:

Appearance - Clear red liquid

Odor - Mild

pH, as is - < 1

Density - 9.76 pounds per gallon

Foaming - High

Rinsing - Excellent

Active Ingredient - Quaternary Ammonium Complex

Directions for Use:

See product label for EPA regulated directions for use. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Safety:

DANGER! Corrosive. Contains quaternary ammonium and phosphoric acid. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. In case of skin contact, flush skin with water. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician. If inhaled, remove to fresh air.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Do not contaminate water, food or feed. Keep container closed and store in a cool, dry air. Keep from freezing.
