

## TECHNICAL DATA

# KC-681 ACID SANITIZER

### Description:

KC-681 Acid Sanitizer is a multi-purpose cleaner and sanitizer for use in the Dairy and Food Processing Industry. KC-681 Acid Sanitizer removes milkstone and hardwater film, cleans, sanitizes, and brightens stainless steel surfaces. Mixing is easy. KC-681 Acid Sanitizer is recommended for cleaning dairy farm bulk milk tanks, sanitizing milking equipment and cow udders and sanitizing food processing equipment. EPA Reg. No. 1839-51-63679.

### Physical Properties:

Appearance – Clear red liquid  
Odor – Mild  
pH, as is – < 1  
Density – 9.76 pounds per gallon  
Foaming – High  
Rinsing – Excellent  
Active Ingredient – Quaternary Ammonium Complex

### Directions for Use:

See product label for EPA regulated directions for use. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### Safety:

**DANGER!** Keep out of reach of children. Corrosive. Contains quaternary ammonium and phosphoric acid. Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Read Safety Data Sheet (SDS) before using this product.

### Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal. Store in a dry place no lower in temperature than 50 °F or higher than 120 °F. Store in an area inaccessible to children.

Do not reuse or refill this container. Triple rinse container promptly after emptying as instructed below. Follow pesticide disposal instructions for rinsate disposal. Offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

**≤5-gal container:** Fill container ¼ full with water. Agitate vigorously. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. **>5-gal container:** Fill container ¼ full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn container over onto its other end and repeat. Repeat this procedure two more times.

Pesticide wastes are acutely hazardous. Improper disposal is a violation of federal law. Contact your State Pesticide or Environmental Control Agency, or the nearest Hazardous Waste representative at EPA Regional Office for guidance.
