

TECHNICAL DATA

SODIUM HYDROXIDE FLAKES

Description:

Sodium hydroxide flakes are a convenient form of dry caustic soda. Sodium Hydroxide flakes are used in mechanical bottle-washing, glass washing, for pH control, scale removal, and equipment cleaning.

Physical Properties:

Appearance - White flakes

Odor - Alkaline

Density - 133 lb/ft³

Directions for Use:

Use at 1 to 4 ounces per gallon of water. Contact your PSSI Chemical Innovations representative for use instructions for your particular application.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected.

Safety:

Caustic Soda beads are corrosive! Avoid contact with skin and eyes. Avoid breathing dust or mist from solutions. Never add water to Caustic Soda beads to avoid violent eruption of caustic solution. Add Caustic Soda beads slowly to surface of cold water and agitate while they dissolve.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Store in a cool, dry location. Keep container closed to avoid absorption of moisture.
