Christine Donohue, MPH, PhD
Senior Managing Consultant
Ramboll
Email: cdonohue@ramboll.com

Dear Dr. Donohue:

RE: CC-130

This is in response to your letter of June 6, 2023, wherein you notified us regarding a legal change to your client's company name from Packers Chemical, Inc. to Safe Foods Chemical Innovations and requested an updated letter of no objection for the subject product to be used as a dishwashing detergent in Federally Registered Food Establishment.

Based on the information submitted, we can advise that we see no reason to object to the composition and use of the subject machine dishwashing detergent in food processing establishments, provided that:

- a) there will be no contamination of food as a result of its use;
- b) it is used in the minimum amount required to achieve the intended technical effect; and
- c) cookware or utensils and other surfaces subject to direct contact with food are hard and non-porous in nature and are thoroughly rinsed with potable water after the treatment (*it is assumed that in the case of automatic washers, there is an automatic rinse cycle*), drained and dried prior to re-use, which should be stated on the label of the product.

We trust that the foregoing will be of use to you.

Yours truly,

2023-12-18

X *Cynthia Scholten*
