Dear Ms. Tyo:

RE: CC Natural Red and CC-416

This is in response to your e-mail of November 5, 2019, seeking our comments on the acceptability of the subject products for in food processing establishments on behalf of PSSSI Chemical Innovations (formerly Packers Chemical Inc.).

Re: CC Natural Red and CC-416

Based on the information submitted, we can advise that we see no reason to object to the composition and use of the subject food contact surfaces cleaners in food processing establishments, provided that:

- a) there will be no contamination of food as a result of their use and storage; and
- b) surfaces subject to direct contact with food are thoroughly rinsed with potable water after treatment with the products.

Re: CC Natural Red

Based on available information submitted on this product, we can advise that we see no reason to object to the composition and its use as a hand cleaner by the employees handling food products in food processing establishments, provided that:

- a) there will be no contamination of food as a result of its use; and
- b) after use, hands are thoroughly rinsed with potable water before handling food in the food processing.
