

TECHNICAL DATA

CC PACKERLUBE

Description:

Safe Foods Chemical Innovations CC Packerlube is a trolley and chain lubricant, effective in a variety of slaughter and processing environments. CC Packerlube is a blend of petroleum oils, vegetable oils and a special additive to help provide low drip and excellent lubrication.

Physical Properties:

Appearance – Colorless viscous liquid
Odor – Odorless
pH – NAP
Density – 0.85 kg/L
Flash Point – Open cup: 177°C (351°F)
Pour Point – -12°C (10°F)

Directions for Use:

Spray method: Spray onto clean trolleys and hooks for lubrication and rust protection. Blow off the excess or let drip for sufficient amount of time to avoid dripping onto meat products.

Dip method: Float 8-10 cm of CC Packerlube on top of hot water (55°C - 82°C). Dip clean trolleys and hooks in product to completely cover them. Blow off the excess or let drip for sufficient amount of time to avoid dripping onto meat products.

Safety:

Danger! May be fatal if swallowed and enters airways. Causes eye irritation. Avoid contact with skin, eyes or clothing. In case of eye contact, flush eyes with water for at least 15 minutes. Get medical attention if irritation develops and persists. Wash thoroughly after handling.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Avoid water contamination and extreme temperatures to minimize product degradation. Do not store with strong oxidizing agents. Do not store at temperatures above 49°C or in direct sunlight for extended periods of time. Keep container closed.
