

TECHNICAL DATA

CC TRIPEMAX E

Description:

Safe Foods Chemical Innovations CC Tripemax E is an effective food-grade bleaching compound for use in beef feet and tripe processing.

Physical Properties:

Appearance – Clear liquid

Odor – Pungent

pH, as is – 2-4

Density – 1.13 kg/L

Directions for Use:

Use approximately 90-150 mL of CC Tripemax E per unit of product. Thoroughly rinse with potable water to remove all residue. For further information, please contact your Safe Foods Chemical Innovations representative.

Safety:

Danger! Oxidizer! Corrosive. Causes severe skin burns and eye damage. Avoid contact with eyes, skin or clothing. Avoid breathing vapors or mists. In case of eye contact, flush eyes with water for at least 15 minutes and call a physician. In case of skin contact, flush skin with water and consult a physician if symptoms develop and persist. Wash thoroughly after handling. This product decomposes yielding oxygen that supports combustion of organic matter and can cause overpressure if confined. Never return unused CC Tripemax E to the original container. Contact with combustibles may cause fire. Combustible materials exposed to hydrogen peroxide should be immediately submerged in or rinsed with large amounts of water to ensure that all CC Tripemax E is removed.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Containers must be vented. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep at a temperature not exceeding 46°C and out of direct sunlight. Do not store drums on wooden pallets. Keep away from open flames, hot surfaces and sources of ignition. Avoid contact with reducing agents, wood, paper, and heavy metals, and caustics.
