

CECURE™

CPC Antimicrobial

Cecure is one of the most effective direct food contact antimicrobials available today. It is trusted by the leading poultry, meat, and produce processors around the world. Cecure's proprietary formula drastically reduces the number of pathogenic and spoilage organisms, resulting in safer food with a longer shelf life. Due to its neutral, non-reactive nature, Cecure is also very safe to handle and work with in the plant environment.

KEY BENEFITS

- ▶ No off-gassing, neutral pH, non-reactive
- ▶ Approved by FDA, USDA, Health Canada and others
- ▶ Rapid pathogen kill through cell lysis
- ▶ Ideal for skin-on parts
- ▶ Highly effective against Campylobacter and Salmonella
- ▶ A safer and low-cost alternative to peracetic acid (PAA)

ABOUT SAFE FOODS CHEMICAL INNOVATIONS

Safe Foods Chemical Innovations, a division of PSSI Food Safety Solutions, is your premier partner for superior chemical solutions, intervention processing aids, and innovative equipment. PSSI offers comprehensive sanitation services, chemical products, pest management, and intervention solutions for food processing facilities. Its team of skilled food sanitors, microbiologists, technical experts and engineers are committed to keeping USDA, FDA, and CFIA processing facilities clean, safe, and audit-ready. PSSI works with each partner to develop smarter and more efficient food safety programs for total protection.
