This product is considered non-hazardous under OSHA regulation 29 CFR 1910.1200. The remaining components are trade secret.

### Section 4. First Aid Measures

- Eye contact** : If symptoms develop, flush eyes gently with water while holding eyelids apart. If symptoms persist or there is any visual difficulty, seek medical attention.
- Skin contact** : First aid is not normally required. However, it is recommended that exposed areas be cleaned by washing with soap and water.
- Ingestion** : Seek medical attention. If individual is drowsy or unconscious, do not give anything by mouth; place individual on the left side with the head down. Contact a physician, medical facility, or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended.
- Inhalation** : If symptoms develop, move individual away from exposure and into fresh air. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet; seek immediate medical attention.
- Note to physicians** : None.

### Section 5. Fire-Fighting Measures

- Suitable extinguishing media** : Use an extinguishing media appropriate for surrounding fire.
- Specific hazards** : May form: aldehydes, carbon dioxide and carbon monoxide.
- Special protective equipment for fire-fighters** : Wear a self-contained breathing apparatus with a full face piece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment. Refer to the personal protective equipment section of the SDS.

### Section 6. Accidental Release Measures

- Small Spill** : Absorb liquid on vermiculite, floor absorbent or other absorbent material.
- Large Spill** : Prevent run-off to sewers, streams or other bodies of water. If run-off occurs, notify proper authorities as required, that a spill has occurred. Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed. Stop spill at source, dike area of spill to prevent spreading, pump liquid to salvage tank. Remaining liquid may be taken up on sand, clay, earth, floor absorbent, or other absorbent material and shoveled into containers.

## Section 7. Handling and Storage

---

### Handling

Use good personal hygiene practices. Wash hands before eating, drinking, smoking, or using the toilet facilities. Promptly remove soiled clothing and wash before reuse. Shower after work using plenty of soap and water.

### Storage

Store in a well ventilated place. Keep container tightly closed when not in use. Store away from excessive heat or cold and open flame. Protect from freezing.

## Section 8. Exposure Controls/Personal Protection

---

### Engineering measures

Not required under normal conditions of use. However, if unusual operating conditions exist, then provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below PEL/TLV (s).

### Personal protective equipment

**Eye protection** : Wear safety glasses in compliance with OSHA regulations.

**Skin protection** : Wear resistant gloves such as: natural rubber

**Respiratory protection** : Not required under normal conditions of use.
