

TECHNICAL DATA

PC-1210

Description:

PC-1210 is a 10% silicon-based defoamer and all its components are in compliance with FDA regulation 21 CFR173.340 and it is limited by that regulation to a maximum usage of 100 ppm for most uses. Consult this regulation for situations where the use limitation may be different. All components of this product are manufactured under Good Manufacturing Practices. Consideration for other FDA permitted uses would require further evaluation.

Physical Properties:

Appearance – Opaque, off-white viscous liquid

Odor – Mild

Density – 8.34 pounds per gallon

Dispersibility - Readily dispersible in warm or cold water with mild agitation

Viscosity @ 25°C – 800-1600 cPs

Directions for Use:

Concentrations ranging from 10 to 100 ppm of PC-1210 have proved to be effective in most applications. PC-1210 can be added directly or prediluted with water for maximum efficiency. Prediluted material should be stored for no longer than 8 hours.

Safety:

Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep away from strong oxidizers. Keep container closed. Store in a cool, dry place. Protect from freezing. Shelf life: 1 year from the date of manufacture if stored between 41°F and 95°F.
