

SPIRALCLENZ™

Taking the mystery out of membrane cleaning

Safe Foods Chemical Innovations offers a full range of membrane cleaning solutions. SpiralClenz™ products play an important role in the membrane cleaning process. Cleaning is a vital step in maintaining the permeability of the membrane, minimizing the risk of bacterial contamination, and helping you produce quality products. Our membrane products are designed for use in microfiltration (MF), ultrafiltration (UF), nanofiltration (NF), and reverse osmosis (RO) systems.

Safe Foods Chemical Innovations manufacturing facility is certified to SQF Quality Code No 34046 by AIBI-CS. Our membrane care solutions can help promote product quality and throughput, reduce the total cost of cleaning, and protect your brand through leveraging our advanced science and superior products.
